BAJA

BECOME AN OLIN BAJA PARENT SPONSOR

Olin Baja (Olin College's Baja SAE team) gives young engineers real world experience designing, fabricating, testing, repairing, and racing an off-road vehicle. Your support enables us to further our team goals of engaging new students, funding the creation of a new vehicle every year, and taking the team to intercollegiate competitions across the country.

UNLEADED LEVEL

\$50-\$149

OUR MISSION:

Engage students in a long-term, large-scale project that gives team members opportunities to develop engineering and leadership experience through the design, fabrication, testing, and racing of an off-road vehicle.

- ## TEAM GOALS:
- Redesign of gearbox to address failures from last year
 - Reworking suspension to improve design and increase robustness
 - Addition of sensor suite for monitoring our CVT
 - Exploring use of new materials for improved fabrication and weight savings
 - Increased modeling and physical prototyping to accelerate our iteration cycle

2015-2016 HIGHLIGHTS:

Warming up for competition at Tennessee Tech!

Doing some jumping practice on our test course behind Olin!

Approaching the rock crawl during the suspension course in Tennessee!
